The local business of the Southern Central will be very large both in freight and passenger traffic. The rich Agricultural country through which it runs will instord a constantly increasing business. The great manufacturing establishments at Auburn, whose water-power is the best in the State, and the enterprising towns along the line, will always secure to this road a good income.

st runs ahead both in numbers and quality, having 82 cars to-day, while Communipae has 78, and Weehawken 57 cars. More than haif of the cattle for the week were yarded at the former place.

We found the trade of to day, in its details, as follows, beginning at the up-town National Yards, with 1,360 cattle on sale. In point of quality there was quite as great a range as usual, embracing distillery-fed bulls at 12c., up to extra fine Ohio grades of the John Moss pattern, at 17c. There were not buyers enough to make a very lively market, but still the scales were seldom idle, many of the cattle being sold by weight. The retail shop butchers of the upper end of the island, and of Long Island were buying stock, and some of the wholesale butchers secured cattle. Still the droves cost so much at Euffalo, Albany and claswhere, that there was little if any money in them. Buyers insisted that cattle should be lower, but rather than make much concession, some of the drovers held until the market was nearly over, and a few remnants were likely to go over until to-morrow.

At Communicary, with 1,240 somewhat even cattle, of

At Communipaw, with 1,340 somewhat even cattle, of which the Alexanders owned 779, about the usual number of buyers were at work, and the yards were well cleared by 2 o'clock p. m. Few sales are reported outside of 143 clear, the best cattle touching 16jc., being between good and prime anality.

16c., the best cattle touching 16cc., being between good and prime quality.

Including 29 cars of cattle, which arrived about noon, there were 1,001 head at Weehawken to-day. The late arrivals were caused by the great freshet of yesterday, which washed the road between the tunnel and the yards, as to make it necessary to unload at West End, and drive the stock to Weekawken. This deranged the trade, butchers either holding back for the late droves, or leaving the yards, and it was not likely that all the stock could be sold by night. Some of the little State steers and cows went at 13c., with good cattle at 15216c., and one extra pair holding above 17c. The following transactions are noted:

The droves for S. Ulery, P. F. Cary, Toffey & Sons, E. & H. Hurd, and some others, arrived too late to report.

MILCH COWS—Though fewer in numbers, cows are not selling very well, owing, in part, to poor quality. Right good cows would sell, but mikmen are unwilling to pay more than \$75.2485. It takes sine cow to bring \$50 for family use. No really fancy cows are offering, but there are plenty that are poor enough, at least. Some of them are selling at \$40.2485. We note 14 sold at a range of \$50.2800, the whole averaging about \$72, with 10 others at \$50.280.

others at \$70 250.
VEAL CALVES—There is a little increase in numbers.

VEAL CALVES—There is a little increase in numbers, but the cool weather last week favored sending them dressed. The approaching warm weather, added to the increasing vigilance of the police in securing "small yeal," will begin to lessen the number of hog-dressed and swell the receipts of live. The express companies are now requiring freight in advance on dressed calves, for they can collect nothing from the Sanitary police as charges on what is confiscated, and some large hauls have lately been made. Prices are lower for all kinds, fat live calves selling at 11stile.—only a few of the best at 12c.—with common at 7siloc. Hog dressed take the wide range of 8siloc, for bobs, and some stale calves, to 12siloc, for medium, and 15siloc, for good to prime. It takes something extra to bring 15c. One lot of 50 to 65 it calves sold at 8siloc, with some of 75 ib, at 14c.

SHEEP.—The total of 20,134 is 6,400 more than were re SHEEP,—The total of 20,184 is 6,400 more than were received the previous week, but so light have been the arrivals for several weeks that there is no let up on prices as yet, only a tendency in that direction, the firm attitude of the butchers nearly amounting to a combination to buy lower or not at all. Prices have ruled extremely high during the last few days, the averages generally showing a gain of 600 291 above the prices of the previous week. The first arrival of clipped sheep is chromeled, two, cars, 70 B, costing Se in Buffalo, arriving in Weelawken in the severe atorm of yesterday. We can scarcely find anything in the shape of sheep selling below 70, but will call the market 64 270 for mean to scarcely medium lots; 8285, for fair to good sheep, and 22916 for extras. Trade is alow, the seven cars at Communipaw to day, with as many more holding from Saturday, bidding fair to go over until Tuesday, save a few small lots pedded out by Bellis & Pidcock, viz. 82 Ohio sheep, 90 B, at \$40, and \$5 of \$5 0.00 \$1
